INDEPENDENT AUDITOR'S REPORT

The Honorable Mayor And Members Of Council
Town of Fenwick Island
Fenwick Island, Delaware

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Town of Fenwick Island, Delaware, as of and for the year ended July 31, 2014, with comparative totals as of July 31, 2013, 2012 and 2011, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Town of Fenwick Island, Delaware, as of July 31, 2014, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 3-10 and 28-32 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Town of Fenwick Island, Delaware, basic financial statements. The supplementary information on pages 33 through 43 is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

MANAGEMENT DISCUSSION AND ANALYSIS

TOWN OF FENWICK ISLAND, DELAWARE
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JULY 31, 2014

As management of the Town of Fenwick Island, Delaware, we offer readers of the Town's financial statements this narrative overview and analysis of the financial activities of the Town for the fiscal year ended July 31, 2014. This discussion and analysis is designed to (a) assist the reader in focusing on significant financial issues, (b) provide an overview of the Town's financial activity, (c) identify changes in the Town's financial position, (d) identify any material deviations from the financial plan, and (e) identify individual fund issues or concerns.

Since the Management's Discussion and Analysis is designed to focus on the current years activities, resulting changes and currently known facts, please read it in conjunction with the Town's financial statements (beginning on page 11).

FINANCIAL HIGHLIGHTS

- The assets of The Town of Fenwick Island exceeded its liabilities at the close of the most recent fiscal year by \$ 4,203,551 (Net assets) as compare to \$ 4,051,211 in the prior year. Unassigned net assets have a balance of \$ 28,538 which may be used to meet the Town's ongoing obligations to citizens and creditors in accordance with the Town's fund designation and fiscal policies.
- As of the close of the current fiscal year, The Town of Fenwick Island's governmental funds reported combined ending fund balances of \$ 1,866,588, an increase of \$ 32,819 in comparison with the prior year. \$ 158,748 of the total amount is unassigned and available for use within the Town's designation and policies.
- At the end of the current fiscal year, unassigned fund balance for the general fund was \$ 158,748, an increase of \$ 91,349.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the Town's basic financial statements. The Town's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements – The government-wide financial statements are designed to provide readers with a broad overview of the Town's finances, in a manner similar to a private-sector business.

The Statement of Net Assets presents information on all of the Town's assets and liabilities, with the difference between the two reported as net assets. Over time, increases and decreases in net assets may serve as a useful indicator of whether the financial position of the Town is improving or deteriorating.

TOWN OF FENWICK ISLAND, DELAWARE
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JULY 31, 2014

The Statement of Activities presents information showing how the Town's net assets changed during the fiscal year. All changes in net assets are reported when the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in the future fiscal periods (e.g., uncollected taxes and earned but unused compensated absences).

Both the government-wide financial statements distinguish functions of the Town that are principally supported by taxes and intergovernmental revenues (governmental activities) from functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the Town include general government and administration, public safety, and streets.

The government-wide financial statements can be found on pages 11-13 of this report.

Fund financial statements – A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds – Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on current sources and uses of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term effect of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental fund statements of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Town maintains ten (10) governmental funds. Information is presented separately in the Governmental Fund Balance Sheet and in the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances for the General Fund, 1½ % Realty Transfer Tax and Municipal Street Aid funds, all of which are considered to be major funds. Data from the other seven (7) funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

The basic governmental fund financial statements can be found on pages 14 and 16 of this report.

Notes to the Financial Statements – The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 18 - 27 of this report.

Other Information – In additional to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the Town's budgetary activity. Required supplementary information can be found on page 28 - 32 of this report.

The combining statements referred to earlier in connection with non-major governmental funds is presented following the required supplementary information. Combining and individual statements and schedules can be found on pages 33 - 43 of this report.

GOVERNMENTAL-WIDE FINANCIAL ANALYSIS

As noted earlier, net assets may serve over time as a useful indicator of government's financial position. In the case of the Town of Fenwick Island, assets exceeded liabilities by \$ 4,203,551 as of July 31, 2014.

A large portion of the Town's net assets (58%) reflects its investments in capital assets (e.g., land, building, equipment, improvements, construction in progress and infrastructure, less any debt used to acquire those assets that is still outstanding). The Town uses these capital assets to provide service to citizens; consequently these assets are not available for future spending.

Governmental Activities 2014 Revenues

Governmental Activities 2014 Expenses

FINANCIAL ANALYSIS OF THE GOVERNMENTS FUNDS

Governmental funds – The focus of the Town of Fenwick Island’s governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Town’s financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government’s net resources available for spending at the end of the fiscal year.

At the end of the current fiscal year, the Town of Fenwick Island’s governmental funds reported combined ending fund balances of \$ 1,866,588. \$ 158,748 of this total amount constitutes unassigned fund balance.

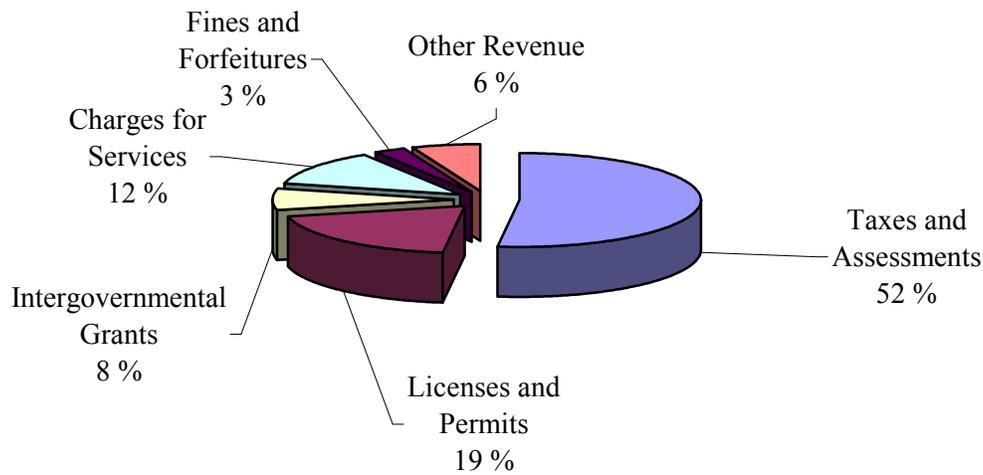

General Fund Budgetary Highlights – Revenues for the general fund operations were above original budgeted revenues estimates by \$ 138,489. Increases in licenses and permits and taxes were the primary reason for a favorable variance. Insurance reimbursement of \$ 31,090 is also contributed to this favorable variance. Departmental expenditures were higher than original budgeted expenditures by \$44,986, primarily due to unbudgeted vehicle acquisition in police department. This acquisition was funded by insurance reimbursement.

	<u>\$ 1,792,794</u>	<u>100%</u>	<u>\$ 1,777,467</u>	<u>100%</u>

General Fund Revenues 2014

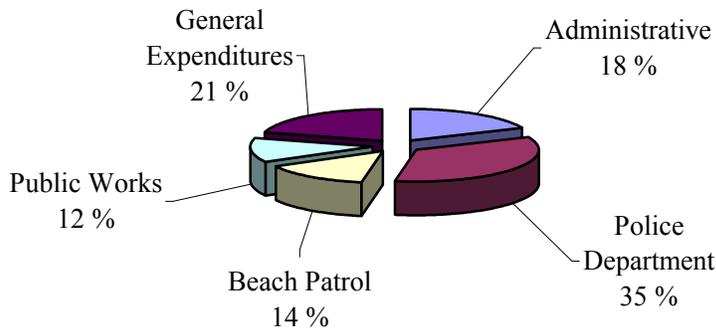

Current and prior year's property taxes continue to represent the largest revenue source, with \$ 660,993 or 37% of all General Fund revenues. The increase in revenues from 2013 of \$ 15,327 was due primarily to increase in permits.

The following schedule represents a comparative summary of General Fund expenditures for the fiscal years ended July 31, 2014 and 2013, along with the percentage of that expenditure to total expenditures:

NOTES TO FINANCIAL STATEMENTS

TOWN OF FENWICK ISLAND, DELAWARE
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JULY 31, 2014

(1) Summary of Significant Accounting Policies

A. General Statement

The Town of Fenwick Island (the “Town”) was incorporated in 1953 and adopted its first charter July 8, 1953, under the provisions of House Bill No. 274, with House Amendment No. 1 (An Act to Incorporate the Town of Fenwick Island, Delaware). The Town operates under a Council-Manager form of government and provides the following services as authorized by its charter: public safety, culture and recreation, planning and zoning, general administrative, and public works to include street maintenance.

The basic financial statements of the Town have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant accounting policies of the Town are described below.

B. Financial Reporting Entity

The Town’s basic financial statements include the accounts of all Town operations. The criteria for including organizations as component units within the Town’s reporting entity, as set forth in Section 2100 of GASB’s Codification of Governmental Accounting and Financial Reporting Standards, include whether:

- the organization is legally separate (can sue and be sued in their own name)
- the Town hold the corporate powers of the organization
- the Town appoints a voting majority of the organization’s board
- the Town is able to impose its will on the organization
- the organization has the potential to impose a financial benefit/burden on the Town
- there is fiscal dependency by the organization on the Town

Based on the aforementioned criteria, the Town of Fenwick Island has no component units.

C. Basis of Presentation

The government-wide financial statements (the statement of net assets and the statement of changes in net assets) report information on all of the activities of the Town. The effect of interfund activity, within the governmental activities columns, has been removed from these statements. Governmental activities, which normally are supported by taxes and

C. Basis of Presentation (Continued)

intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support

The statement of activities demonstrates the degree to which the direct expenses of a given program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific program. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given program and 2) operating or capital grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Taxes and other items are not properly included among program revenues are reported instead as general revenues.

Fund Financial Statements:

The Town segregates transactions related to certain functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. The statements present each major fund as a separate column on the fund financial statements; all non-major funds are aggregated and presented in a single column.

Governmental Funds are those funds through which most governmental functions typically are financed. The measurement focus of governmental funds is the current financial resources. The Town has presented the following major governmental funds:

General Fund – This is the main operating fund of the Town. It is used to account for all financial resources not accounted for in other funds. All general tax revenues and other receipts that are not restricted by law or contractual agreement to some other fund are accounted for in this fund. General operating expenditures, fixed charges and capital improvement costs that are not paid through other funds are paid from the General Fund.

D. Measurement Focus / Basis of Accounting

Measurement focus refers to what is being measured, basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurement made, regardless of the measurement focus applied.

FOR THE YEAR ENDED JULY 31, 2014

(1) Summary of Significant Accounting Policies (Continued)

D. Measurement Focus / Basis of Accounting (Continued)

The government-wide statements are reported using the economic resources measurement focus and the accrual basis of accounting. The economic resources measurement focus means all assets and liabilities (whether current or non-current) are included on the statement of net assets and the operating statements present increases (revenues) and decreases (expenses) in net total assets. Under the accrual basis of accounting, revenues are recognized when earned. Expenses are recognized at the time the liability is incurred.

Governmental fund financial statements are reported using the current financial resources measurement focus and are accounted for using the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual; i.e., when they become both measurable and available. "Measurable" means the amount of the transaction that can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The Town considers property taxes as available if they are collected within 60 days after year end. A one-year availability period is used for recognition of all other Governmental Fund revenues. Expenditures are recorded when the related fund liability is incurred. However, debt service expenditures, as well as expenditures related to compensated absences are recorded only when payment is due.

The revenues susceptible to accrual are property taxes, franchise fees, licenses, charges for service, interest income and intergovernmental revenues. All other Governmental Fund Type revenues are recognized when received.

The Town reports the following major governmental funds:

The General Fund is used to account for all financial transactions not accounted for in another fund. Revenues are derived principally from property taxes, municipal user taxes, and other intergovernmental revenues. This fund accounts for the general administrative services of the Town not recorded elsewhere, including the activities of the various departments, public safety, street maintenance, administrative, and mayor and council.

The Municipal Street Aid Fund is used to account for financial transactions pertaining to specific resources. Revenues are derived from State of Delaware Transportation Trust Fund grant monies. Expenditures of these monies are allowable for improvements to water and sewer systems, street improvements, public safety and public works.

D. Measurement Focus / Basis of Accounting (Continued)

The 1½ % Realty Transfer Tax Fund is used to account for financial transactions pertaining to specific resources. Revenues are derived from collections of the Town's assessed realty transfer tax fee of 1½ %. Expenditures of these monies are allowable for capital and operating costs of public safety services, economic development programs, public works services, capital projects and improvements, infrastructure projects and improvements and debt reduction.

E. Implementation of New Accounting Principles

Starting with fiscal year 2004, the Town implemented GASB Statement No. 33, GASB Statement No. 34, GASB Statement No. 37 and GASB Statement No. 38.

Under GASB Statement 33, property taxes are imposed non-exchange revenue. Assets (accounts receivable) from imposed non-exchange transactions are recorded when the Town has an enforceable legal claim to the asset. The enforceable legal claim date for property taxes is the assessment date.

GASB 34 creates another set of the basic financial statements for reporting on the Town's financial activities. The financial statements now include government-wide financial statements prepared on an accrual basis of accounting and fund financial statements which present information for individual major funds rather than by fund type. Non-major funds are presented in total in one column.

The Town has implemented GASB Statement No. 54. This standard requires governments to further define how much of the fund balance is truly unrestricted, in order to meet the needs of the governments day to day operations. There are five new fund balance types presented on the Town's financial statements, and are defined as follows:

Non-spendable - Amounts that cannot be spent due to liquidity, such as prepaid amounts and fixed assets.

Restricted - Amounts where an external party has determined how and what items monies can be spent for. Examples include federal, state and county grants.

Committed - Amounts that the Town Council has formally passed by ordinance. A majority vote by council is also required to formally release these funds.

Assigned - Amounts that may be designated for a specific purpose without a formal vote by the Town Council.

Unassigned - Amounts that are at the Town's discretion for day to day operations.

FOR THE YEAR ENDED JULY 31, 2014

(1) Summary of Significant Accounting Policies (Continued)

F. Budgetary Control

The Town charter established the fiscal year as the twelve-month period beginning August 1. The Town Council adopts a budget annually. The budget can be revised as deemed necessary by the Council. A single fixed budget covers the general fund and is employed during the year as a management control device. The budgetary amounts are comprised of the normal operating budget and supplemental budget allocations, if applicable.

(2) Investments

The Town primarily uses Certificates of Deposits and Money Market accounts for their investments.

(3) Prepaid Items

Prepaid balances are for payments made by the Town in the current year to provide services occurring in the subsequent fiscal year. The amount for prepaid items has been designated to signify that a portion of the fund balance is not available for other subsequent expenditures.

(4) Inventory

Inventory consists of supplies used in street repair and drainage projects. These materials are recorded at cost as an asset of the Municipal Street Aid Fund, with an equal offsetting amount recorded as a fund balance.

(5) Interfund Receivables and Payables

The interfund receivables and payables reflected as "Other Financing Sources (Uses)" (due from or to other funds) are current assets and liabilities between the individual funds.

(6) Operating Transfers

Funds have been received and disbursed between the General Fund and Special Revenue Funds to finance operations during the year.

(7) Total Columns On General Purpose Financial Statements

Total columns captioned "Memorandum Only" indicate that they are presented only to facilitate financial analysis. Data in these columns do not present financial position, results of operations, or changes in financial position, nor is such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data. Each fund should be considered separately as to its financial position and operating results.

(8) Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets, are reported in the governmental activities column in the government-wide financial statements. All capital assets are valued at historical cost or estimated historical cost if actual historical is not available. Donated assets are valued at their fair market value on the date donated. Repairs and maintenance are recorded as expenses. Renewals and betterments are capitalized. Interest has not been capitalized during the construction period on property, plant and equipment.

During the fiscal year 2014, the Town performed physical inventory of capital assets. Out of total deletions of \$ 375,861, capital assets amount of \$ 339,153 was determined on longer in service and deleted. \$ 36,708 was actual deletions during the fiscal year 2014.

(9) Long-Term Debt

On August 17, 2012, the Town entered a promissory note with the Bank of Ocean City (BOC) for \$ 305,946 with 3% interest rate. This loan is unsecured and at July 31, 2014, the Town owed \$ 191,110.

In July of 2013, the Town entered into a 3 year operating lease agreement with Toyota Financial Services for the lease of a 2013 Toyota Sienna. Since the Town will not retain any ownership rights to this vehicle, it has not been recorded as a liability or as an asset.

(10) Accrued Compensated Absences

Employees can accrue compensatory time on an unlimited basis. Such liability is reflected in the financial statements.

Liabilities for accrued compensated absences have been allocated between current and long-term liabilities.

For departments accounted in the General Fund, the long-term liability has been recorded in the General Long-Term Debt Account Group.

A. Sick Leave

The Town allows employees to accumulate unused sick leave to a maximum of 960 hours. Upon termination in good standing and having given two week notice, the employee is paid for one-half (1/2) of the accumulated sick hours to a maximum of 490 hours.

Government Accounting Standards Board Statement No. 16 states that “compensated absences for sick leave and other compensated absences with similar characteristics should be accrued only when it is probable that the employer will have to make termination payments”.

\$ 1,183,113 in Certificates of Deposits through the Bank of Ocean City are held by seven different banks and fully insured by the FDIC.

(13) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Town to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reported period. Actual results could differ from those estimates.

(14) Property Taxes

Real property taxes were levied on August 1st. Taxes unpaid at October 30th are subject to a penalty of 5% per month until paid. The total assessed value of property amounted to \$ 35,019,065 for a real property tax yield of \$ 672,366.

(15) Contingencies

The Town maintains commercial insurance policies to handle the risk of loss to the Town's assets and employees.
