

**L.E.S.O.**

**Law Enforcement Support Office**

**The Law Enforcement Support Office (LESO) or LESO Program, facilitates 10 US Code 2576a, which originated from the National Defense Authorization Act of Fiscal Year 1997. This law allows transfer of excess Department of Defense property (equipment) that might otherwise be destroyed to law enforcement agencies across the United States and its territories.**

Currently there are only two officers who can access and request these items from the government.

Sgt Parsons and Cpl Story

Chief Devlin is the supervisor in charge of the program for the Fenwick Island Police Department and it is up to him who is authorized to search and request the items.

Once the officer signs into the L.E.S.O. program, he will be guided through to a search portal where he can access certain bases, certain items, and numerous categories to aide in the search.

Example: I can search all the bases on the entire east coast for an item, or I can search for an individual item and it will bring me the results of ALL the bases world wide that have that item.

Once we are ready to put in for the item, I will go back out the search page and click on the shopping cart icon. This will bring me to the page where I will need justification or the reason why the police department needs this item or items.

The screenshot shows a web browser window displaying the Defense Logistics Agency Disposition Services website. The browser's address bar shows the URL: <https://webapp.dispositionservices.dla.mil/rtd/AddShoppingCartItem.aspx>. The page header includes the DLA logo and navigation links: Home, About Us, Public Affairs, Publications, FAQs, FOMA. The main heading is "DEFENSE LOGISTICS AGENCY Disposition Services". Below this, there are links for "Reutilization / Transfer / Donation (RTD)" and "Add Item to Shopping Cart". A "Show reminder" checkbox is present. A green banner indicates "LESO Shopping Cart [Check Out]" and states "You Have 0 Item(s) in your Shopping Cart. The Shopping Cart holds 50 Items". Below this is a section titled "Add Item to LESO Shopping Cart" and "Inventory Information".

Last Updated: 2019-06-21

Once the justification has been put in and the request is submitted, the next step in the process is that the L.E.S.O. officer located at DEMA in Smyrna will review it. He then has to submit the request to his supervisor, who also has to review it and give his permission for the police department to have the items. The request is then approved by the L.E.S.O. officer in Smyrna.

Once the L.E.S.O. officer approves it, the request then gets forwarded to the main Defense Logistics Agency (L.E.S.O.) in Battle Creek, MI. This office will review the request as well and it will be up to them whether our department will be approved for the item. Not only do they check that our department is authorized the equipment, but also if the equipment is still in inventory as there are many other organizations that put in for the same equipment and this program runs on a first come first serve basis. (There have been times where we have lost out on good equipment because of the long drawn out process)

Once Battle Creek approves the item for our department, we will receive an email stating the property has been awarded to our department. The email will look like the one below:

DATE: 01/16/2021 04:21:58 CST

A Material Release Order (MRO) was awarded for the below material

**CONTACT INFORMATION:**

STATION: DE FENWICK ISLAND POLICE DEPT (2YTD1X)  
NAME: Christopher Story  
PHONE:3025392000  
EMAIL:christopher.story@cj.state.de.us

**MATERIAL INFORMATION:**

DTID: FB449700551801  
NSN: 2340DSMULE000  
REQUESTED QUANTITY: 1  
AWARDED QUANTITY: 1  
DEMIL CODE: A  
DEMIL INTEGRITY CODE: 6  
SUPPLY CONDITION CODE: H  
UNIT OF ISSUE: EA - Each

**ACTION:**

Please contact the applicable Disposition Services Field Site to coordinate a pick-up or arrange for shipment of awarded material. If material is not shipped within 14 days it may be cancelled and returned to stock.

**DISCLAIMER:**

If at any time material is deemed prohibited by the Defense Logistics Agency Law Enforcement Support Office (DLA LESO) the material must be returned to a Disposition Services Field Office immediately.  
Transfer of "Controlled Equipment" to another LEA must receive prior approval from the LESO office.  
LEAs that acquire "Controlled Equipment" must abide by its requirements governing the return and/or disposal of "Controlled Equipment".

**ADDITIONAL INFORMATION:**

For additional information please contact your State Coordinator or the Law Enforcement Support Office at:

Email: [LESO@DLA.MIL](mailto:LESO@DLA.MIL)

Phone: 800.532.9946

Upon receipt of the email, we will also receive an email from the base where the property is located. We will have 14 days to pick the property up from the bases.

This is a 5 Ton All Wheel Drive Vehicle. This vehicle can easily drive through water, over obstacles, and even on the sand. The sides of the bed of the truck will fold down.

The need for this vehicle was during hurricane Sandy, officers had no way of accessing the back streets to rescue residents. It was part of the emergency action plan to acquire a vehicle like this specifically for this purpose. The original cost of this vehicle was approximately \$160,000.00, but the department will be able to obtain this vehicle free of charge.

There will be a cost to operate this vehicle with routine maintenance and up-keep as well as insurance when in use.

This is a HMMRV also known as a Humvee. This is also an All Wheel Drive Vehicle. This vehicle can easily drive through water, over obstacles, and even on the sand. This vehicle can be driven not only during inclement weather, but also on a daily routine if necessary.

Again, the need for this vehicle was during hurricane Sandy, officers had no way of accessing the back streets to rescue residents. It was part of the emergency action plan to acquire a vehicle like this specifically for this purpose. The original cost of this vehicle was approximately \$58,000.00, but the department will be able to obtain this vehicle free of charge.

There will be a cost to operate this vehicle with routine maintenance and up-keep as well as insurance when in use.

This vehicle is an Ford F150 pick up truck. This vehicle can be used by Town Maintenance especially during Covid when it is recommended that personnel be separated and in their own vehicles.

This vehicle is a Kubota Mule. This vehicle can be used by the police department as well as Town Maintenance or Town Hall Staff. This will allow the police department faster access to the beaches for emergency situations.

All L.E.S.O equipment is provided a “DEMIL CODE”. These codes provide information as what conditions as well as if the items need to be controlled or not. The HMMRV & 5 Ton are “Q6” which means at this time, after a year has passed, these vehicle can be removed from our inventory and sold to the public. Any item that is DEMIL CODE “A”, the item is automatically removed from inventory after a year and can be disposed of at the towns discretion. The L.E.S.O. program is basically to provide the police department with needed equipment at no charge to them. It is not intended to be used as a monetary program after the year is up.

The items obtained from the L.E.S.O. program WILL be inspected every year to ensure the department is using the items as justified. Prior to any inspection, all items need to be at the police department for the inspection. One year will be inspected by L.E.S.O. from DEMA, and the next from the L.E.S.O. officials from Battle Creek, MI. (They will rotate every year.)

Another good thing about this program is that police departments can lend these items to other municipalities during times of emergencies.

State L.E.S.O. will also require that training be completed by anyone who will be operating the Q6 vehicles and the records indicating same will kept on file and the training will be put in policies. (Currently the police department have two officers who can train individuals on these vehicle from their past and present military enlistments)
