Bulk Trash Collection and Disposal

The Town of Fenwick Island provides bulk trash service for three days after the Memorial Day weekend (May 30, 31 and June 1) and three days after the Labor Day weekend (September 5, 6, 7) in 2023.

Please do not put bulk trash or yard waste out any sooner than 3 days prior to collection date.

Please put your bulk trash items out before 10pm on the second day of bulk trash pick-up. Items placed out on the final day will not be guaranteed pick-up.

Some common bulk trash items that are approved for collection and disposal are as follows:

- Furniture (couches, recliners, tables), waste lumber, carpet, plastic chairs, electronics (TVs, stereos, radios), large appliances (washers and dryers), and plumbing fixtures (bathtubs, toilets, sinks).

Exceptions are goods that contain chlorofluorocarbons or CFCs such as refrigerators, air conditioners and freezers. For disposal of these items, please call a local waste hauler for removal or take the item yourself to the nearest Delaware Solid Waste Authority facility.

Additionally, no tires, stumps, automobile batteries, flammable/hazardous materials, rocks, bricks, dirt, oil, petroleum products, paint, and construction debris) the service provider will not pick up construction materials from an active project) will be collected.

YARD WASTE

Tree limbs and shrubbery are considered yard waste and are collected by GFL the 3rd Tuesday of each month from April through December. These items must be bundled in no more than 4-foot lengths weighing no more than 50 lbs. Yard waste is to be placed in paper bags or trash cans and must be visible to the collector and on the street by 7 am.
