<p>This project is to scan all files for the Town of Fenwick Island. The files types to be scan are Deans files, Merchant files, Commercial files, Property Cards, Board of Adjustment files and Parcels files. DMI will prep, remove staples, place post notes where they will not cover other information. We will scan the documents at 300 dpi with OCR and PDF the files. At the end of scanning the files will be re-prepped into the folders they came from and back in the boxes. The approximate number of boxes to be scanned is 70 1.2 cu ft boxes. The approximate number of images per box is 2,450 and we will approximate the number of large drawing to be scanned.</p>
