

# Green Infrastructure Working Group Update

June 2, 2025

# Day 1 - Stone Installation and placement of plants

# Day 2 - Installation of the remainder of Plants

# Finished Product & Plant labels

# Thank you to...

- ▶ Carol Anderson-Austra - our landscape architect and all her talents, tools, etc.
- ▶ Roots Landscaping & Inland Bays Nurseries for support and discount on plants
- ▶ Janice Bortner - for planting and loving care of the flock (water and snacks)
- ▶ David Cowell - for donating and setting the stone
- ▶ Beth Gallagher - who came both days - digging, selecting stone and planting
- ▶ John Geovjian - Beth's Brother - digging, planting and hauling compost
- ▶ Curtis Gallagher - Beth's Son - digging and planting
- ▶ Lynn Zimmer - digging, planting and who is also providing water for the plants until they get established

It truly takes a village; and it was hard work digging through all of the bamboo roots and micro roots that made it a bit challenging.
