## Powerful During Emergencies, Useful Every Day

Regroup Mass Notification empowers better mass communication that keeps people safe and informed at all times. our award-winning, cloud-based mass communication platform is what clients across North America and around the globe rely on to send both emergency and day-to-day communications to millions of people. Our system helps organizations keep people safe, strengthen operational resilience, mitigate risk, and thrive in an increasingly unpredictable world.

### The Most Ways to Send & Receive

Broadcast your message via email, text/SMS, push notifications, desktop alerts, voice calls, digital signage, PA systems, website portals, social media outlets, and more.

### Unlimited Messages & Admins

We offer unlimited email, push notifications, and social media messaging to every client. In addition, you can create unlimited groups, admins, and templates in the system.

### Emergency Alerts Made Easy

When seconds count, pre-programmed QuickPost Templates help you get information out fast. Regroup also offers automated alerts from IPAWS, NOAA, NWS, and more.

### Location-Based Messaging

When location matters, notify people in specific areas with Regroup's GeoFence messaging capabilities. Simply draw your location on a map or select a location group to alert recipients with specific messages.

### Two-Way Communications

With two-way messaging, you can ask for status updates or request responses through a variety of channels and recipients can respond quickly and easily from wherever they are.

### Ease of Use & Setup

Our platform and mobile apps are designed to be easy to use in every way. Setup is a breeze with automatic two-way database synchronization, opt-in/opt-out registration, and unlimited training.

### Free Mobile Apps

Regroup offers two mobile apps that make it easier for administrators and recipients alike to send and receive messages from wherever they are in the palm of their hand.

### Comprehensive Analytics

Easily confirm delivery of messages to ensure your message has been received. Real-time data gives you the ability to take alternative steps to reach recipients as needed.

### 24/7 Client Support

Our experienced and knowledgeable support team is available twenty-four hours a day to help with onboarding, broadcasting messages, or to answer questions.

## Unify Your Messaging and Contact Data

Regroup's flexible API integrates with thousands of third-party systems and databases, allowing you to manage your contact data easier and unify your communication into one easy-to-use platform. We can also offer Single Sign-On (SSO) Authentication with most integrations.

### Regroup integrates easily with:

- CRM Systems
- API-Enabled Databases
- Learning Management Systems (LMS)
- Help Desk Ticketing Platforms
- Scheduling and Calendar Systems

## Automated Critical Alerts

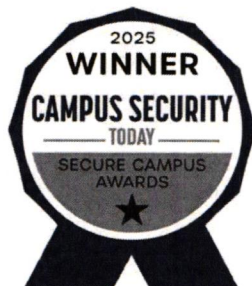

Accelerate transmission of critical alerts and reduce the margin for human error by automating your emergency notification process. Regroup's automated, content-triggered messaging enables you to predetermine which parameters and rules automatically trigger an alert.

Our platform offers native integrations with all Federal and National public notification systems, and works with your internal systems to automate emergency notification protocols. Alerts can be automatically triggered from:

- Integrated Public Alert Warning System (IPAWS)
- National Weather Service (NWS)
- National Oceanic and Atmospheric Administration (NOAA)
- Business Continuity Systems
- IT Monitoring Systems
- Fire and Other Alarm Systems
- Any Regroup Messaging API Connection

## Awards and Accolades
